SKILLS

Website Setup : Creating websites with HTML and CSS and hosting with Nginx

Remote hosting : Configuring a VPN server on Ubuntu Server for access to a personal infrastructure using OpenVPN.

Network administration : Using pfSense to filter traffic, set port rules, and block websites

STRENGTHS

Curiosity : When a subject interests me, I try to learn as much as possible and seek out information to improve my skills or expand my personal knowledge.

Attention to detail : When I'm involved in a project, I like to push myself to the limit and always strive to improve

Perseverance : I face a problem or a situation, I will do everything in my power to resolve it or learn as much as possible from it.
